

**Renée High**

## Renée High

Renée brings about a cozy and elegant workspace with its functional design and sophisticated features offered in a compact form. Renée High comes with higher distinctive metal side brackets and it offers a pair of movable shelves with drawers.

Shelves can be attached to the metal brackets around the tabletop with hidden magnets on their sides. When not used with drawers, the user may create compartments of various sizes under the shelves by choosing the position of the vertical shelf supports. Thin and ergonomically contoured tabletop supports the sincere atmosphere with natural wood surface.

Enriching its elegance with strong features, Renée creates a relaxed work environment at home. Fitted with an electrification solution, the desk gives access to all your power connections from your seat and reduces cable clutter.

### Designed by Nurus D Lab

Nurus D Lab, always up to date with both scientific and technological developments; designs products that are ahead of their time by observing the needs of users and listening to their dreams. The end product that is presented to the user is the best one among countless options, emerging from brilliant ideas. Nurus D Lab manages all the steps that are taken from setting the brand's design strategy to the market launch.

Drawers, shelves, dividers...  
Flexible storage spaces

Dimensions defined in millimeters.
