TO Sofa

Design by **Tanju Özelgin**

To Sofa

To Sofa can be used in wider spaces through its connectable build as well as the readily available options of single, double and triple. Comfortable and harmonious, lowered backrest and seat depth enables effective use of body language. Sofas of different sizes may be used in harmony with other Nurus products as well as others from the To line. Use it at meeting or resting spaces, recreational areas, at homes and in the social atmosphere. Unlike traditional meeting settings, To allows efficient use of more limited spaces.

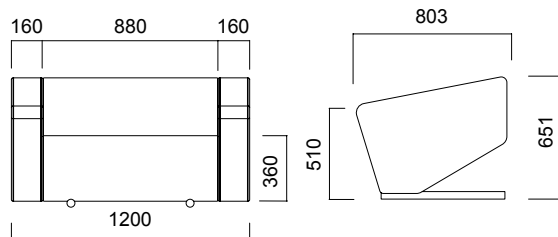

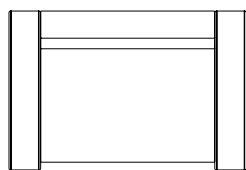

Design by Tanju Özelgin
