

Peak

Design by **Aziz Sariyer**

Peak

Establishes personal spaces through a high backrest that decreases environmental impact, Peak injects splendour and comfort to living spaces through its extraordinary design and elliptic form.

Featuring a rich variety of colour and fabric options, Peak seamlessly blends into usage spaces and supports architectural structure with a throne-like design.

Peak is an ideal choice for numerous living spaces, including cafés, restaurants, work spaces, waiting rooms and lounge areas; you can utilize Peak side by side, facing one another, or in opposite directions to create a variety of seating options.

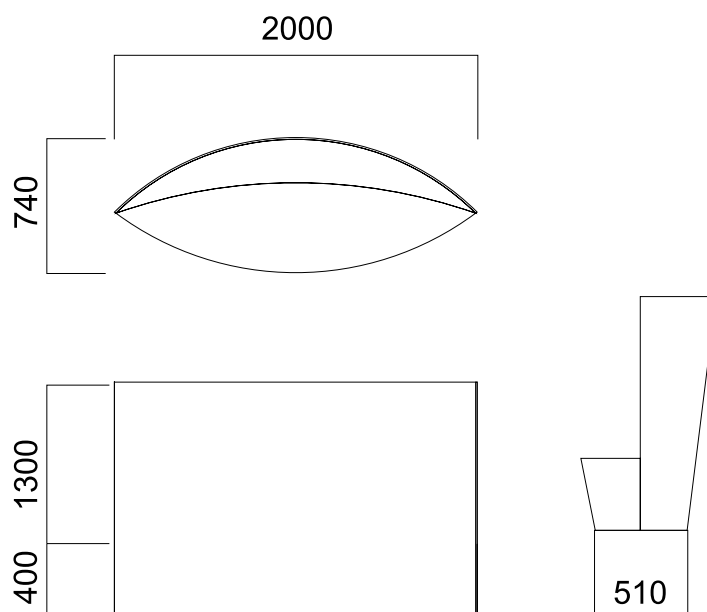

Design by Aziz Saryer

Born in Istanbul in 1950, Aziz Saryer established Derin Design in 1971 and started designing furniture and interiors professionally. His passion and determination for his work has made him a worldwide renowned figure in world design community. He developed his collection for Derin in 1999, and in only a year he achieved a significant position among world leading brands. Saryer has worked with Cappellini, Moroso, Zeritalia and Scia.

Selected for 100 designers of 21st century encyclopaedia in 2004 by Terence Conran publish group of UK, Saryer has made great contributions for Turkish design features to reach design values developed worldwide.
