Vika Collection

Design by **Monica Förster**

BERNHARDT | design by **nurus**

Tranquil and natural curves of a river bed...

Vika which was inspired by the active, lively and changing scenery formed by the rivers of Switzerland, has the beauty and wavy shape of this geographical scene. Vika, which looks as natural and random as the nature itself has delicate lines that emphasize the feeling of fluidity. Vika hides its master craftsmanship in its details and allows various combinations with the richness of its material and fabric options.

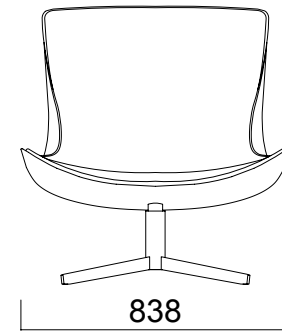

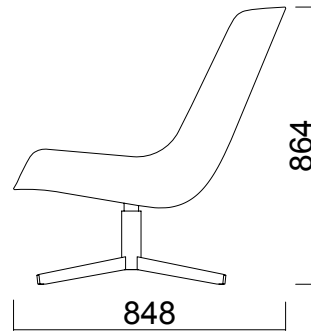

Vika has two versions. The first version has a fiberglass frame and a leather or fabric inner surface. In the second version, both the inner and outer surfaces can be leather, vinyl or fabric. Vika is a perfect product to create an impressive look in the area with its organic lines, large seat and multi purpose usage.

Vika has two versions with its white fiberglass frame and leather or fabric inner surface; or leather, vinyl or fabric upholstered inner and outer surfaces.
