Ashbury Asymmetric

Design by **Stefan Brodbeck**

Ashbury Asymmetric

The asymmetric version which wields a contemporary design comes on 4 legs or on 2 legs with a side cabinet option. Side cabinet with screen unit is optional in 2-leg version. Screen unit allows multimedia presentations and video conferences without even leaving the seat. It may be raised to eye level, hidden or stored away at will, using a fluid mechanism.

Also optional in Ashbury Asymmetric is **Nurus Links**[®], with or without the desktop wireless charging unit. You may further customize your desk with a touch operated cable cap that hides the USB connections and the mains socket with 2-leg and manual operated cable cap with 4-leg. Finally, a desk pad is also optional.

- Optional built-in HD monitor on side cabinets feature a button activated hide and reveal mechanism.
- Optional **Nurus Links**[®] with wireless mobile charging support and easy access to USB & electrical connections.
- Optional eco-leather desk pad available in 3 different colors.

nurus links[®]

Nurus Links[®] that are exclusive to Nurus products helps your electronics match your furniture; allows transferring of information and video-conferences to be realized. Quick and accurate charging abilities coupled with multimedia features bring speed and ease into daily operations.

Design by Stefan Brodbeck

Stefan Brodbeck studied product design and architecture in Kassel. He started his professional life by working with Eichinger oder Knechtl architectures in Vienna. Brodbeck, who specialized in various fields ranging from home and office furnitures to industrial products, and from exhibition planning to design; founded his own design studio called Brodbeck Design in 1994.
