# Cushions

Design by **Nurus D Lab**

---

## Cushions

Our cushions are produced in accordance with health and safety standards, and they help reflect your style in living spaces with a variety of colour options and graphic pattern choices.

Our cushion cases are produced by using anti-allergic, fireproof, and recyclable fabric in accordance with international standards, and a secret zipper makes them easy to take off and clean.

Produced by using environment friendly ink and without any hazardous chemicals, fibre filling used inside our cushions prevent them from losing volume and shape, while goose feathers on the outer layer add comfort to your living space. You can safely use our cushions to add colour and dynamism to living spaces, they are suitable for everyone as will protect your health.

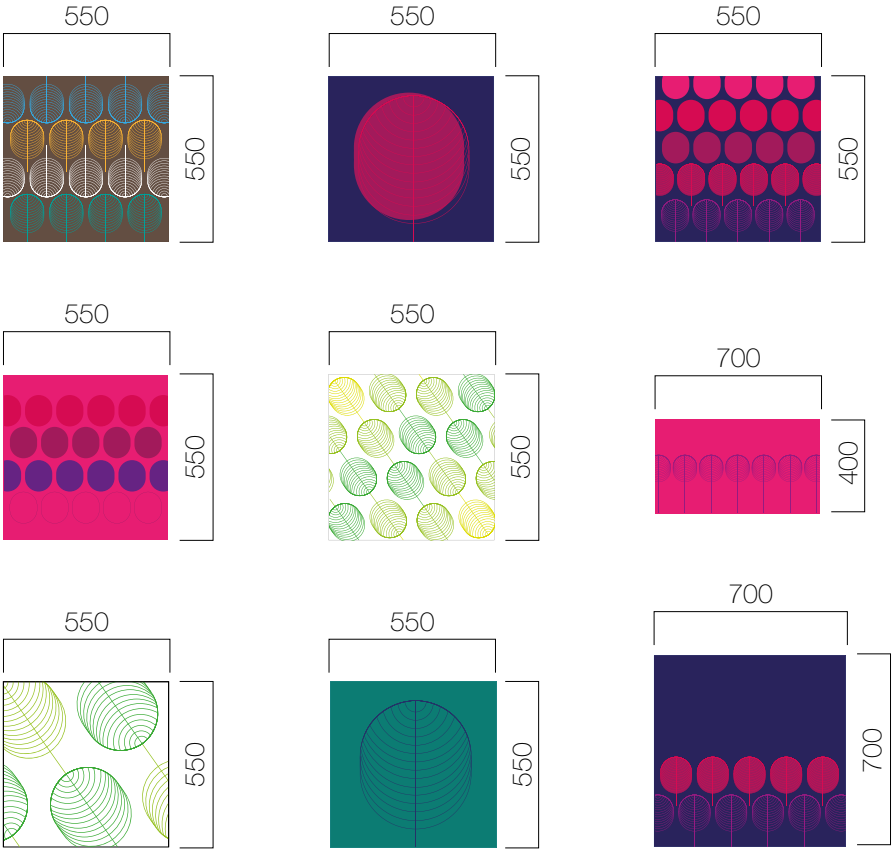

## Design by Nurus D Lab

Always up-to-date with science and technology, Nurus D Lab designs products that are ahead of their time. Through human-centred observation, prototyping and in respect to trending needs and dreams, the team works diligently. Coming up with meaningful and reflective design solutions only marks the start of the process: From strategy to launch and support, D Lab manages it all. Each detail is attended and tested through at the advanced level.
