Fiorellina Collection

Design by **Fabrizio Batoni**

Lightness of the balance!

Fiorellina has been manufactured as a mono block, using the fiberglass-filled polypropylene injection technique. The seats and the backrest come in two types; with and without holes.

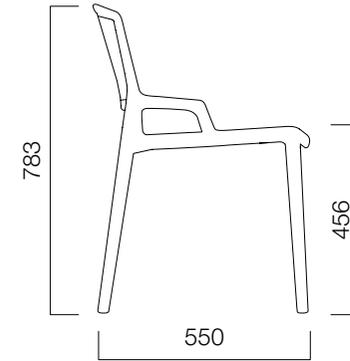

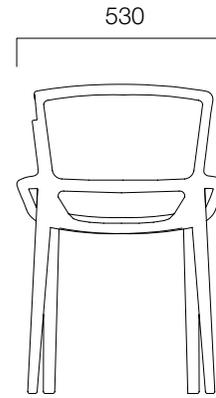

It holds the UNI EN 1022/98 and UNI EN 1728/00 standards that determine the durability and ergonomics of a work chair in the European Union countries. Suitable for outdoor use, Fiorellina can be stacked in fours.
