Lunar Collection

Design by **Nurus D Lab**

Functional, aesthetic, and efficient workspaces.

Lunar features a rich product family featuring single desks and workstations. Lunar is an ideal choice for individual workspaces, units of two or three people, and unit managers, helping efficiently organizing workspaces.

Lunar facilitates efficiently and functionally organizing workspaces both for individuals and work groups of two or three people with single desks and work systems.

Lunar offers three single desks: single leg, double leg, and with whatnot and nightstand for leg, helping organize individual workspaces. Lunar also features front panel option in its single desks with different width choices.

Lunar Single Desks

Lunar work systems consist of workstations for two or three people, strengthening interaction and cooperation between employees. Utilizing optional middle panels, Lunar work systems support teamwork as well as individual efforts.

Lunar desks offer two different table slab choices: perpendicular corners and radius.

*Lunar also features an option to mount a circular electrical cap to facilitate access to electrical connections.
