## An acoustic panel as an art piece...

As part of the decoration, we designed Pieces acoustic panels within an understanding of furniture concept. You can prefer Pieces' acoustic sponges in different levels of frequencies, and also various geometrical shapes and colors.

Pieces acoustic panels have a perfect balance with its 3-leg form and a portable lightweight. Looks like a painting, Pieces' sound absorption at low frequencies up to 100 HZ.

More than one Pieces can use as a divider panel.

# Nurus D Lab

The background is a solid light gray. It features three large, stylized, overlapping shapes that resemble leaves or petals. These shapes are composed of concentric, slightly offset layers, creating a 3D effect. The colors of these shapes are dark blue, light gray, and white. The word "nurus" is centered in the middle of the image in a bold, white, sans-serif font.
